Degree of Clarity Enhancement & Relative Rarity:

American Gemological Laboratories™

America's first and most highly respected origin lab.

Founded in 1971

AGL is an internationally recognized gemstone testing facility, specializing in comprehensive colored stone analysis.

AGL has the distinction of being the first laboratory in the United States to issue Country-of-Origin reports. Our company and its principals have a long tradition of research into the detection of and reporting on gem identification and classification, gemstone treatments and provenance determinations.

Our staff is composed of experts in the field of gemstone testing and reporting. Our findings reflect the latest knowledge and analytical techniques to ensure the highest standards are applied on every stone we test.

AGL's testing and reporting methodology provide you with unsurpassed quality and reliability. We are committed to providing the highest level of service and reporting that our clients and the industry have come to expect from the AGL.
