The Report is not a guarantee, valuation or appraisal and contains only the characteristics of the diamond described herein after it has been graded, tested, assessed and analyzed by the laboratory providing this Report ("GIA") and/or has been created using the techniques and equipment used by GIA at the time of the assessment and/or recipient. Recipients reported in this document are not a guarantee, valuation, or warranty of a diamond's quality, source of origin or source, or that the diamond will be identifiable to the recipient in the event of a loss (this disclaimer may be removed). GIA makes no representation concerning the trademark, name, or symbol which is marked on GIA or which is identified on this Report. The recipient of this Report may wish to consult a professional jeweler or gemologist about the information contained herein.

This Report is not a guarantee, valuation or appraisal and represents only the observations of the diamond described herein after it has been graded, tested, measured and analyzed by the laboratory providing this Report. (100) facets have been included using the techniques and equipment used by GIA at the time of the examination under magnification. Incomplete reports of this document do not constitute evidence of a diamond's quality, purity of color or weight, or that the diamond will be identifiable by the examples in the table below. Inquiries may be directed to GIA. GIA makes no representation concerning any trademark, trade or symbol which is used by GIA or which is described in this Report. The recipient of this Report may wish to consult a competent jeweler or gemologist about the information contained herein.
