Diamond Grading Report No. 99424

The 4C grades

Weight:	5.037 ct
Colour:	exceptional white (E)
Clarity:	VS1
Cut:	only applicable to round brilliants

Further characteristics

Shape, cut:	pear-shaped, modified brilliant
Measurements:	14.56 x 9.93 x 6.10 mm
Symmetry:	very good
Polish:	very good
Proportions:	depth: 61.5% table: 61%
Girdle:	medium, faceted
UV-fluorescence:	none
Comments:	external characteristics (indicated in green) internal growth characteristics The analysed properties confirm the colour authenticity of this type Ia diamond.

The diagram indicates the approximate outline of the diamond. The number of facets, their positions and patterns may not be accurate. Major internal characteristics are printed in red. Major external characteristics are printed in green.

Important Note: The conclusions on this Diamond Grading Report reflect our findings at the time it is issued and is established in accordance with recognised international rules. A diamond could be modified and/or enhanced at any time. Therefore, the SSEF can at any time reassess if a stone is in accordance with the Diamond Grading Report. Testing is carried out by at least two experts according to the present knowledge in the field of diamond grading, using recognized scientific testing methods and modern analytical instruments. This Diamond Grading Report is in no way a statement of monetary value for the graded diamond. Only the Report with the valid original signatures, embossed stamp and ProofTag™ label affixed on the surface of the laminated report is a valid document for the graded diamond. PDF scans and copies of a Diamond Grading Report are not legally binding documents. Misuse of this document will be legally prosecuted. The place of jurisdiction is Basel, Switzerland. The Swiss Gemmological Institute is the executive, independent and public arm of the Swiss Foundation for Research of Gemstones - SSEF. See important notes at the back of the report and www.ssef.ch/terms-conditions. © The certificate is copyright of SSEF.
