Colored Stone Origin Report

The information contained in this report represents the opinion of American Gemological Laboratories regarding the characteristics of the colored stone(s) submitted for examination. The conclusions expressed are the American Gemological Laboratories' interpretation of the results obtained from gemological instruments and grading techniques designed for this purpose. Conclusions may vary, within reasonable tolerances, due to the subjective nature of colored stone analysis.

DOCUMENT NO: CS 38659

DATE: 1 November, 2006

IDENTIFICATION: Natural Ruby, Classic Burma™

SHAPE AND CUT: Oval Mixed Cut

CARAT WEIGHT: 2.154 Cts.

MEASUREMENTS: 9.92 x 5.38 x 2.83 mm.

COLOR GRADE: Not Requested

Color Rating Range:

Color Scan:

Depth %:

Brilliance Range:

Brilliance Average:

FRESH GRADE:

NOTE: All color determinations are subject to the color temperature of the light source and the color sensitivity of the observer. The quality and commercial desirability of any color is determined by examining the interrelationships of ALL factors related to Color Grade, including Color Rating, Tone, and Dichroic Effect. Conclusions may vary within reasonable tolerances, due to the subjective nature of colored stone analysis. Mounted stones are graded only to the extent that mounting permits examination.

COMMENTS: "Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Classic Burma™ (Myanmar). Heat Enhancement: None. Clarity Enhancement: None. The image contained in this document is for representative purposes only and is not necessarily actual color or size. The conclusions expressed in this report are based on Laboratory determinations effective as of the completion date of this analysis (2 November 2006)." - AGL - American Gemological Laboratories
