Test Report No. 69428

on the authenticity of the following gemstone,
set in a ring with diamonds

Total weight: approximately 9.3 grams
(including setting and diamonds)

Shape & Cut: oval, brilliant / step cut

Measurements: approximately 9.55 x 9.00 x 4.85 mm

Calculated weight: approximately 3.8 ct
(see also the declared weight in the comments)

Colour: blue of medium strong saturation

Identification: **SAPPHIRE** (variety of natural corundum)

Comments: The analysed properties confirm the authenticity
of this transparent sapphire.

Indications of heating:

The calculated weight is in accordance with the
declared weight of 3.75 ct.

Important note: The conclusions on this Test Report reflect our findings at the time it is issued. Mounting may limit complete analysis of a gemstone or pearl, thus all conclusions are given as far as the mounting permits. The authenticity and colour authenticity of the additional diamonds in the setting have not been tested. The indicated calculated weight is only approximate and may differ from the exact weight of the gemstone/pearl when unmounted. A gemstone or pearl can be modified and/or enhanced at any time. Therefore, the SSEF can reassess at any time whether the gemstone or pearl is in accordance with this Test Report. Only the Test report with the valid original signatures, embossed stamp and Proof Tag™ label affixed on to the surface of the laminated Test report is a valid document. See terms and conditions on reverse side. © This Test report is copyrighted SSEF.
