Test Report No. 100678

on the authenticity of the following gemstone,
 set in a brooch with diamonds

Total weight: 30.8 grams
 (including setting and diamonds)

Shape & cut: drop-shaped, polished and drilled

Measurements: approximately 18.00 - 18.35 x 28.75 mm

Estimated weight: approximately 59 ct

Colour: green of medium strong saturation

Identification: **EMERALD** (variety of natural beryl)

Comments: The analysed properties confirm the authenticity
 of this transparent emerald.

Indications of clarity modification.
 Minor amount of oil in fissures at the time of testing.

Origin: Colombia

Test	Correspondence table for filler quantification			Filler in cavities		
	Minor amount of filler in fissures	Moderate amount of filler in fissures	Significant amount of filler in fissures	O1	O2	O3
Alphanumeric system	F1	F2	F3			

Important Note: The conclusions on this Test Report reflect our findings at the time it is issued. A gemstone or pearl can be modified and/or enhanced at any time. Therefore, the SSEF can at any time reassess whether the gemstone or pearl is in accordance with this Test Report. A setting may limit complete analysis of a gemstone or a pearl, thus all conclusions are given as far as the setting permits. The authenticity and colour authenticity of additional diamonds, gemstones, and pearls in the setting have not been tested. The indicated estimated weight is only approximate and may differ from the exact weight of the gemstone/pearl when unset. Only the Test Report with the valid original signatures, embossed stamp and Proof Tag™ label affixed onto the surface of the laminated Test Report is a valid document. PDF scans and copies of a Test Report are not legally binding. See terms and conditions on reverse side and www.ssef.ch/terms-conditions. © This report is copyright of SSEF.

Diamond Grading Report No. 100676

The 4C grades

Weight: 6.366 ct
Colour: slightly tinted white (I)
Clarity: Piqué 1
Cut: only applicable to round brilliants

Further characteristics

Shape, cut: pear-shaped, modified brilliant
Measurements: 16.95 x 11.07 x 5.72 mm
Symmetry: very good
Polish: very good
Proportions: depth: 52% table: 67%
Girdle: medium to thin, faceted
UV-fluorescence: none
Comments: external characteristics (indicated in green)
The analysed properties confirm the colour authenticity of this type Ia diamond.

The diagram reflects the approximate outline of the diamond. The number of facets, their proportions and positions may not be accurate. Major internal characteristics are plotted in red. Major external characteristics are plotted in green.

Important Note: The conclusions on this Diamond Grading Report reflect our findings at the time it is issued and is established in accordance with recognized international rules. A diamond could be modified and/or enhanced at any time. Therefore, the SSEF can at any time reassess if a stone is in accordance with the Diamond Grading Report. Testing is carried out by at least two experts according to the present knowledge in the field of diamond grading, using recognized scientific testing methods and modern analytical instruments. The Diamond Grading Report is in no way a statement of monetary value for the graded diamond. Only the report with the valid original signature, impressed stamp and ProofTag™ label affixed on the surface of the laminated report is a valid document for the graded diamond. PDF scans and copies of a Diamond Grading Report are not legally binding documents. Misuse of this document will be legally prosecuted. The place of jurisdiction is Basel, Switzerland. The Swiss Gemmological Institute is the executive, independent and public arm of the Swiss Foundation for Research of Gemstones - SSEF. See important notes at the back of the report and www.ssef.ch/terms-conditions. © The certificate is copyright of SSEF.
