Diamond Grading Report No. 111881

The 4C grades

Weight:	5.426 ct
Colour:	exceptional white (E)
Clarity:	VS2
Shape, cut:	oval, modified brilliant

Further characteristics

Measurements:	13.90 x 10.00 x 6.20 mm
Symmetry:	very good
Polish:	very good
Proportions:	depth: 62% table: 59%
Girdle:	medium, faceted
UV-fluorescence:	none
Comments:	internal growth characteristics
	The analysed properties confirm the colour authenticity of this type Ia diamond.

The diagram reflects the approximate outline of the diamond. The number of facets, their proportions and positions may not be accurate. Major inclusion characteristics are plotted in red. Major external characteristics are plotted in green.

Important Note: The conclusions on this Diamond Grading Report reflect our findings at the time it is issued and is established in accordance with recognized international rules. A diamond could be modified and/or enhanced at any time. Therefore, the SSEF can at any time reassess if a stone is in accordance with the Diamond Grading Report. Testing is carried out by at least two experts according to the present knowledge in the field of diamond grading, using recognized scientific testing methods and modern analytical instruments. This Diamond Grading Report is in no way a statement of monetary value for the graded diamond. Once verified on www.myssef.ch, only the report with the valid original signatures, embossed stamps and Proof Tag™ label affixed on to the surface of the laminated report is a valid document for the graded diamond. PDF scans and copies of a Diamond Grading Report are not legally binding documents. Misuse of this document will be legally prosecuted. The place of jurisdiction is Basel, Switzerland. The Swiss Gemmological Institute is the executive, independent and public arm of the Swiss Foundation for Research of Gemstones - SSEF. See important notes at the back of the report and www.ssef.ch/terms-conditions. © The certificate is copyright of SSEF.
