Test Report No. 115272

on the authenticity of the following gemstone,
set in a ring with diamonds

Total weight: 11.6 grams
(including setting and diamonds)

Shape & cut: antique cushion, brilliant / step cut

Measurements: approximately 11.00 x 8.75 x 5.50 mm

Declared weight: 5.123 ct
(see also the comments)

Colour: red of medium strong saturation

Identification: **R U B Y** (variety of natural corundum)

Comments: The analysed properties confirm the authenticity
of this transparent ruby.

No indications of heating.

Origin: Burma (Myanmar)

The declared weight is in accordance with
our weight estimation.

Conclusions as far as the setting permits.

Important Note: The conclusions on this Test Report reflect our findings at the time it is issued. A gemstone or pearl can be modified and/or enhanced at any time. Therefore, the SSEF can at any time reassess whether the gemstone or pearl is in accordance with this Test Report. A setting may limit complete analysis of a gemstone or a pearl, thus all conclusions are given as far as the setting permits. The authenticity and colour authenticity of additional diamonds, gemstones, and pearls in the setting have not been tested. Any declared weight on an SSEF report has been stated by the client. SSEF does not take any responsibility whatsoever for the accuracy of the declared weight. Once verified on www.myssef.ch, only the Test Report with the valid original signature, embossed stamps and Proof Tag™ label affixed onto the surface of the animated Test Report is a valid document. PDF scans and copies of a Test Report are not legally binding. See terms and conditions on reverse side and www.ssef.ch/terms-conditions. © This report is copyright of SSEF.

Appendix letter No. 115272

Exceptional Ruby

The natural ruby described in Test Report No. 115272 from the Swiss Gemmological Institute SSEF possesses extraordinary characteristics and merits special mention and appreciation.

The described ruby is set in a ring with small colourless diamonds in a very classic design. The ruby of 5.123 ct (declared weight) is characterised by an attractive red colour and an outstanding purity, a combination rarely encountered in Burmese rubies of this size.

The small inclusions found by microscopic inspection and the analysed properties are consistent with those found in rubies from the classical ruby mines in the Mogok valley in Burma (Myanmar), well known for its wealth in gems since historic times. The attractive red colour of this ruby is due to a combination of well-balanced trace elements, which are characteristic of the finest rubies from Mogok.

In addition to these qualities, this ruby has been spared exposure to heat treatment and its clarity and colour are thus entirely natural.

A natural ruby from Burma of this size and quality can be considered rare and exceptional.
