Diamond Grading Report No. 82404

The 4C grades

Weight:	5.766 ct
Colour:	tinted white (L)
Clarity:	VS2
Cut:	only applicable to round brilliants

Further characteristics

Shape, cut:	octagonal, step cut
Measurements:	10.73 x 9.36 x 6.42 mm
Symmetry:	good
Polish:	good
Proportions:	depth: 68.5% table: 72.5%
Girdle:	medium to thin, polished
UV-fluorescence:	none
Comments:	external characteristics (indicated in green)
	The analysed properties confirm the colour authenticity of this type Ia diamond.

The diagram reflects the approximate outline of the diamond. The number of facets, their proportions and positions may not be accurate. Major internal characteristics are plotted in red. Major external characteristics are plotted in green

Important Note: This diamond grading report is established in accordance with recognized international rules. Testing is carried out by at least two experts according to the present knowledge in the field of diamond grading, using recognized scientific testing methods and modern analytical instruments. This diamond grading report is in no way a statement of monetary value for the graded diamond. Only the report with the valid original signatures, embossed stamp and ProofTag™ label is a valid document for the graded diamond. Misuse of this document will be legally prosecuted. The place of jurisdiction is Basel, Switzerland. The Swiss Gemmological Institute is the executive, independent and public arm of the Swiss Foundation for Research of Gemstones - SSEF. See important notes at the back of the report © The certificate is copyright of SSEF.
