Test Report No. 101631

on the authenticity of the following pearls,
set in a pair of ear-pendants (A + B) with diamonds

Total weight: A: 12.6 grams
B: 12.5 grams
(including setting and diamonds)

Shape: slightly baroque drop-shaped, half-drilled
As for many natural pearls, the backsides of these pearls have been worked.

Measurements: A: approximately 12.15 - 15.70 x 20.70 mm
B: approximately 11.50 - 15.70 x 21.70 mm

Estimated weight: A: approximately 27 ct (108 grains)
B: approximately 27 ct (108 grains)

Colour: white with rosé and green overtones

Identification: **two NATURAL PEARLS**

Comments: The analysed properties confirm the authenticity
of these saltwater natural pearls.

Conclusions as far as the settings permit.

Important Note: The conclusions on this Test Report reflect our findings at the time it is issued. A gemstone or pearl can be modified and/or enhanced at any time. Therefore, the SSEF can at any time reassess whether the gemstone or pearl is in accordance with this Test Report. A setting may limit complete analysis of a gemstone or a pearl, thus all conclusions are given as far as the setting permits. The authenticity and colour authenticity of additional diamonds, gemstones, and pearls in the setting have not been tested. The indicated estimated weight is only approximate and may differ from the exact weight of the gemstone/pearl when unset. Only the Test Report with the valid original signatures, embossed stamp and Proof Tag™ label affixed onto the surface of the laminated Test Report is a valid document. PDF scans and copies of a Test Report are not legally binding. See terms and conditions on reverse side and www.ssef.ch/terms-conditions. © This report is copyright of SSEF.
