**About Us**

American Gemological Laboratories®  
America's first and most highly respected gem lab.

Founded in 1937, AGL is an internationally recognized gemstone testing facility, specializing in comprehensive natural stone analysis.

AGL had the distinction of being the first laboratory in the United States to issue Country of Origin reports. Our company and its principals have a long tradition of research into the detection and reporting on gem identification and optimization, gemstone treatments and gemstone determinations.

Our staff is composed of experts in the field of gemstone testing and reporting. Our findings reflect the latest knowledge and analytical techniques to ensure the highest standards are applied on every stone we test.

AGL's testing and reporting methodology provide you with unprecedented quality and reliability. We are committed to providing the highest level of service and reporting for our clients and the industry take pride in support from the AGL.
