**Test Report No. 69428**

on the authenticity of the following gemstone,  
set in a ring with diamonds

Total weight: approximately 9.3 grams  
(including setting and diamonds)

Shape & Cut: oval, brilliant / step cut

Measurements: approximately 9.55 x 9.00 x 4.85 mm

Calculated weight: approximately 3.8 ct  
(see also the declared weight in the comments)

Colour: blue of medium strong saturation

Identification: **SAPPHIRE** (variety of natural corundum)

Comments: The analysed properties confirm the authenticity  
of this transparent sapphires.  
  
Indications of heating.  
  
The calculated weight is in accordance with the  
declared weight of 3.75 ct.

Important note: The conclusions on this Test Report reflect our findings at the time it is issued. Mounting may limit complete analysis of a gemstone or pearl; thus all conclusions are given on a best effort basis. The identity and colour authenticity of the additional diamonds in the setting have not been tested. The indicated calculated weight is only approximate and may differ from the exact weight of the gemstone/pearl when mounted. A gemstone or pearl can be modified and/or enhanced at any time. Therefore, the SSEF can not assess at any time whether the gemstone or pearl is in accordance with this Test Report. Only the Test report with the valid original signature, embossed stamp and Proof Tag™ label attached on to the surface of the generated Test report is a valid document. See terms and conditions on website site. © This Test report is copyright SSEF.
