

MADONNA AND CHILD

France, 19th century.

Ivory, carved all around. The Mother of God, standing slightly in contrapposto, holding the Christ Child in her left arm.

H 20.5 cm.

Fine cracks. The figure is a reference to the French madonnas of the 14th century, in which the caring relationship between Mother and Child is high-lighted. Cf. Hermann Schnitzler, Fritz Volbach, Peter Bloch: *Skulpturen. Collection E. und M. Kofler-Truninger*, Lucerne, Vol. 1, p. 43, with an illustration of the Enthroned Mother of God, formerly from the Collection J. Stein in Paris.

This object contains material of endangered species and is subject to certain trade restrictions. Prospective buyers should familiarize themselves with relevant customs regulations prior to bidding if they intend to import it into another country.
