The Report is not a guarantee, valuation or appraisal and concerns only the characteristics of the diamond described herein after it has been graded, tested, assessed and analyzed by the laboratory providing this Report ("GIA") and/or has been analyzed using the techniques and equipment used by GIA at the time of the assessment and/or recipient. Recipients reported in this document are not a guarantee, valuation, or warranty of a diamond's quality, amount of weight or source, or that the diamond will be identifiable to the recipient in the event there are exceptions (see the reverse). GIA makes no representation concerning the trademark, mark or symbol which is inscribed on GIA's plots, as identified on this Report. The recipient of this Report may wish to consult a professional jeweler or gemologist about the information contained herein.

This Report is not a guarantee, valuation or appraisal and represents only the observations of the diamond described herein after it has been graded, tested, measured and analyzed by the laboratory providing this Report. (100) points have been marked using the reference and equipment used by GIA at the time of the measurement and analysis. Irregularities reported in this document are not a guarantee, valuation or warranty of a diamond's quality, purity of color or weight, or that the diamond will be identifiable by the examples in the future (even treatments can be detected). GIA makes no representation concerning any trademark, trade or symbol which is used by GIA or which is described in this Report. The recipient of this Report may wish to consult a qualified jeweler or gemologist about the information contained herein.
