This Report is not a guarantee, valuation or appraisal. The Report contains only the characteristics of the diamond described herein after it has been graded, tested, examined and analyzed by GIA Gem Trade Laboratory under 10X magnification, and/or has been certified, using the techniques and equipment available to GIA Gem Trade Laboratory at the time of the examination and/or at the time of being recertified, including fully computerized digital image and binocular microscope, master color comparison diamonds, standardized viewing environment and light source, electronic color balance, high intensity short wave fluorescence imaging system, optical measuring device, micro laser measuring device, Proportionalizer[®], ultraviolet light, refractive index, additional visual color comparisons, spectroscopy, Raman Spectroscopy[®], immersion liquid, ultraviolet-visible and infrared spectrometers, X-ray fluorescence spectrometer, gamma-ray spectroscopy system, beta radiation detection device, radiation survey meter, X-ray fluorescence equipment, and auxiliary instruments as necessary. Red symbols denote internal characteristics (inclusions). Green or black symbols denote external characteristics (blemishes). Diagram is an approximate representation of the diamond, and symbols shown indicate type, position, and approximate size of clarity characteristics. All clarity characteristics may not be shown. Details of facets are not shown. The recipient of this Report may wish to consult a certified Jeweler or Gemologist about the importance and understanding of cut, color, clarity and carat weight.
